Zabeer Shaik

Phone: 9848951988
Email: shaikzabeer393@gmail.com

I'm a Salesforce Developer with experience designing, developing, and deploying scalable Salesforce solutions using Sales cloud, Service Cloud, LWC, Apex, and automation tools. Proven expertise in building complex business process automation, REST API integrations, and dynamic user interfaces. Collaborative team player experienced in Agile environments, sprint planning, and delivering robust CRM solutions. Currently seeking a Salesforce Engineer role to contribute technical expertise and grow within a high-performing team.

EMPLOYMENT HISTORY

Salesforce Developer | AbhyramIT solutions Private ltd, Bangalore   **Jun 2024 - Present**

Astronics - Sales Cloud
ROLE : Salesforce Developer
DESCRIPTION: Astronics Corporation is an American corporation founded in 1968, headquartered in East Aurara, New York. It is traded on NASDAQ as Nasdaq : ATRO. It is known for lighting and electronics integrations on military, commercial, and business aircraft and semiconductor test systems.
RESPONSIBILITIES:

- Developed and customized Salesforce standard & custom objects, workflows, and validation rules to support 4+ business units.
- Built 3+ Lightning Web Components (LWC) and Visualforce pages to enhance UI responsiveness and data visibility.
- Created advanced Reports & Dashboards to deliver real-time business insights.
- Managed security using Profiles, Permission Sets, OWD, Role Hierarchy, and Sharing Rules.
- Automated lead and case processes using Flows, Process Builder, and Approval Processes, improving operational efficiency by 30%.
- Wrote 20+ unit tests achieving over 80% Apex code coverage to support production-grade deployments.
- Integrated Salesforce with external systems using REST APIs and tested endpoints using Postman and Workbench.
- Managed deployment lifecycle using Change Sets and Salesforce DX across sandboxes and production orgs.
- Created detailed technical documentation and solution diagrams to support handovers and future maintenance.
- Participated in Agile ceremonies: sprint planning, daily standups, reviews, and retrospectives.
- Collaborated with Technical Leads and Architects to refine user stories and estimate technical efforts.
