ZABEER SHAIK

PROFESSIONAL SUMMARY

I am equipped with a diverse set of technical skills required for the suitable role and commitment to continuous learning. Possessing a recent degree. I am seeking an entry-level role to apply and enhance my expertise.

PROJECTS

- ### Students Information in Statistics

The objective of this project is to analyze and derive statistical insights from a dataset containing information about students. The dataset includes various attributes such as student IDs, names, ages, grades, and other relevant information.

- ### E - Tickets for Stadiums

An E-tickets for Stadiums project involves the development of a digital ticketing system for stadiums. This system enables users to purchase, store, and present electronic tickets for stadium events through a mobile app or online platform.

- ### Online Food Delivery Application

An online food delivery application for a single restaurant typically includes various features to facilitate a seamless ordering and delivery process where customers can order foods from online applications.
